2. Mr. Marcy advised that in response to his request Senator Fulbright has designated Pat Holt, of the Staff, to handle matters relating to the Agency and requested when appropriate that we advise Pat of the fact of direct contact with the Chairman. Mr. Marcy was quick to point out that there is no attempt on his part here to delve into sensitive matters or to identify contacts between the Agency and the Chairman. This is a request for assistance in what is admittedly a Committee administrative problem.

3. I advised Mr. Marcy that I could foresee no problem and we will be pleased to touch base with Pat in such instances. I also advised that in the event of any question on the foregoing I would have Mr. Warner call him.
